

Ilse Löhr

Web & UI/UX enthusiast

Work Experience

Student Research Assistant

At Fraunhofer IWU, I built a pipeline, that checks software vulnerabilities by the integration of various vulnerability detection tools, based on a real software project.

Fraunhofer IWU
April 2023 – Dez. 2025

Trainee Role - Webmaster

As a webmaster at ostec GmbH, I was primarily responsible for the maintenance, optimization, and ongoing development of the company websites. The company operates using Holacracy as its organizational model.

ostec GmbH

- Commerzbank AG
- Pharmacy Rathaus Pirna

Vacation work
Aug. 2019

Internship
May 2018

Internship
April 2016

Education

Master of Science in Web Engineering

Web Engineering provides technical foundations of the World Wide Web as well as practical skills in the development, management, and evolution of data-intensive, web-based software systems. **Final Grade:** 1.5

Chemnitz University of
Technology
Sept. 2023 – Jan. 2025

Bachelor of Engineering in Media Informatics

Media Informatics combines computer science with media technologies and provides solid knowledge in software development, media technology, and digital media processing. **Final Grade:** 1.7

Dual University Saxony
DHSN - Dresden
Sept. 2020 – Aug. 2023

Abitur (Highest Entrance Education Qualification Germany)

Advanced subjects: English, Economics
Final Grade: 1.8 (German grading system)

BSZ-Pirna
Sept. 2017 – July 2020

Mission, Socials

My mission is to bridge design intentions with developer interpretation, delivering web products that are creative, yet shaped around real user needs. I believe strong web products are intuitive, unique, and inclusive.
